

EVOGENCY

The Home Service Growth Kit

Copy and paste scripts that get you more reviews, save missed calls, and fill your schedule.

For plumbers, HVAC techs, electricians, roofers, and contractors

evogencyglobal.com

Welcome

This kit gets your phone ringing more, your reviews climbing, and your missed calls turning into booked jobs. It's built for home service pros who are great at the work but don't have time to write marketing.

Everything here is copy and paste. Swap anything in [brackets] for your details and you're live. An editable copy of every script came with this PDF, so you can paste straight into your phone or CRM.

What's inside

Part	What you get	Setup time
1. Google Review Request Kit	Text and email asks, follow ups, and replies for good and bad reviews	10 minutes
2. Missed Call Text Back Pack	Auto texts for daytime, after hours, emergencies, and quote follow ups	10 minutes
3. Ad Template Pack	Hooks, Facebook and Instagram ads, and Google Business Profile posts by trade	10 minutes
4. Quick Start Checklist	A step by step plan and a simple tracker	5 minutes

The 30 minute setup: load the review texts into your phone or CRM, turn on missed call text back, and post one Google Business Profile update today. That alone puts you ahead of most shops in your area.

Part 1: Google Review Request Kit

The best time to ask for a review is within 2 hours of finishing the job, while the visit is still fresh in the customer's mind. Text beats email for response rate, so lead with text and use email as the backup.

Before you start: get your direct review link. In your Google Business Profile, tap "Ask for reviews" and copy the short link. That link goes wherever you see [Review Link].

Google's review rules, the short version. Ask **every** customer the same way, not just the ones you think are happy. Google doesn't allow picking only customers you expect to be positive, or steering unhappy customers away from reviewing. Never offer a discount or gift for a review, never write reviews for customers, and never post reviews for your own business. If your texts send automatically, they need opt out wording such as "Reply STOP to opt out." Break these and Google can remove your reviews or suspend your profile.

The first ask (send within 2 hours)

1 OR 2 STAR REVIEW

[First Name], I'm sorry your experience didn't meet our standards. That's not how we want anyone to feel. Please call me directly at [Phone] so I can look into this and make it right. [Owner Name], Owner

Rules for bad reviews: stay calm, never argue in public, never share job details or prices, and move the conversation to a phone call.

Part 2: Missed Call Text Back Pack

When someone calls a home service business and nobody answers, they usually call the next company on Google. A text within 60 seconds keeps them talking to you instead.

Before you turn this on: register your number for business texting. US carriers now filter texts from business numbers that aren't registered for A2P 10DLC, and they often block them without telling you. Your auto reply would look like it's working while customers never see it. Most business phone apps and CRMs have a texting registration page in settings. It takes a few days and costs a few dollars in carrier fees. Do it once and you're set. Any automated text also needs opt out wording such as "Reply STOP to opt out." Most apps add it for you.

How to turn it on: most business phone apps and CRMs (OpenPhone, Jobber, Housecall Pro, ServiceTitan, GoHighLevel) have a missed call auto reply setting. Paste the scripts below into it. If yours doesn't, email hello@evogencyglobal.com and we'll point you to the right setup.

That last text often gets the most replies. People answer when you give them permission to say no.

Part 3: Ad Template Pack

Good home service ads do three things fast: name the problem, show you're local and trustworthy, and tell people exactly what to do next. Every template below follows that pattern.

Hooks that stop the scroll

Use one of these as the first line of any ad or post.

1. Your water heater is not supposed to make that noise.
2. [City] homeowners: your AC shouldn't be working this hard.
3. That flickering light is trying to tell you something.
4. We show up when we say we will. Wild concept, we know.
5. Upfront pricing. No surprises. No "we'll see when we get there."
6. A small leak today is a big bill next month.
7. Your neighbors on [Street or Neighborhood] already called us.
8. [Number] five star reviews and counting in [City].
9. Don't wait for it to break at 2am on a holiday.
10. Family owned in [City] since [Year].

Ad basics that matter more than the words

Tip	Why it works
Use a real photo of your truck, team, or work	Stock photos look like everyone else
Target a 10 to 20 mile radius	You only pay for people you can actually serve
Always include one clear offer	It gives people a reason to call now, not later
Answer the phone when ads are running	An ad that rings an empty phone is money down the drain
